Switches

## Switches

CTS Corporation offers a variety of switches to accommodate the needs of manufacturers in an assortment of industries. These switches include DIP switches, rotary DIP switches, rotary selector switches and tactile switches. As a pioneer of modern DIP switch technology, CTS provides high quality, affordable products paired with exceptional customer service to remain at the forefront of the industry. CTS aims to offer value beyond the physica product, and is committed to being your partner in smart solutions.

## Switches

## $\square$ Sense

## DIP Switches

## Typical Applications

Telecommunications, computer motherboards, remote controls and HVAC

A broad range of options are available for CTS slideand lever-style DIP switches, including low-profile, half-pitch (. 05 inch), standard-pitch (. 1 inch), and through-hole and surface mount options. We offer top, right angle or side actuation styles. Our unique design and construction allows for superior ESD protection in many of our DIP switch products. The

CTS DIP switch product line includes SPST, SPDT, DPST and 3PST circuit switching options. Some styles are available with a choice of gold-plated or economical tin-plated contacts. An optional bottom epoxy seal and removable tape seal on the actuator side protects the switches during soldering and board washing. Custom marking is available.

## Surface Mount DIP Switches

| Series |  | Description | Actuation | Plating | Options | Life | Operating Temperature |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 193 |  | Side Actuated, <br> Gull Wing, <br> .100" Pitch <br> Terminal Spacing, <br> Bottom Epoxy Seal | SPST | Contacts - Gold, <br> Terminals - Tin | Custom Marking, <br> ON or OFF Shipping <br> Position, <br> Tape and Reel <br> Packaging | $\begin{aligned} & 7,000 \\ & \text { Cycles } \end{aligned}$ | $-40^{\circ} \mathrm{C}$ to $+85^{\circ} \mathrm{C}$ |
| 204 |  | Top Actuated, Gull Wing, 100" Pitch Terminal Spacing, ESD Protection | SPST, SPDT, DPST, 3PST | $\begin{aligned} & \text { Contacts - Gold, } \\ & \text { Terminals - Tin } \end{aligned}$ | Top Tape Seal, 3 Actuator Heights, Custom Marking, ON or OFF Shipping Position, <br> Tape and Reel Packaging | $\begin{aligned} & 5,000 \\ & \text { Cycles } \end{aligned}$ | $-55^{\circ} \mathrm{C}$ to $+85^{\circ} \mathrm{C}$ |
| 218 |  | Low Profile, <br> Top Actuated, <br> .050" Pitch <br> Terminal Spacing, <br> Bottom Seal | SPST | Contacts - Gold, <br> Terminals - Gold Flash | Top Tape Seal, <br> J-Bend or Gull Wing, <br> ON or OFF Shipping <br> Position, <br> Tape and Reel <br> Packaging | $\begin{aligned} & \text { 1,000 } \\ & \text { Cycles } \end{aligned}$ | $-55^{\circ} \mathrm{C}$ to $+85^{\circ} \mathrm{C}$ |

## Through-Hole DIP Switches

| Series |  | Description | Actuation | Plating | Options | Life | Operating Temperature |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 194 |  | Side Actuated, $.100^{\prime \prime} \times .300^{\prime \prime}$ <br> Terminal Spacing, Bottom Epoxy Seal | SPST | Contacts - Gold, <br> Terminals - Tin | Top Tape Seal, Shipping Position, Custom Marking, ON or OFF Shipping Position | $\begin{aligned} & 7,000 \\ & \text { Cycles } \end{aligned}$ | $-40^{\circ} \mathrm{C}$ to $+85^{\circ} \mathrm{C}$ |
| 195 |  | Side Actuated, $.100^{\prime \prime} \times .300 "$ <br> Terminal Spacing, Bottom Epoxy Seal | SPST | Contacts - Gold, <br> Terminals - Tin | Top Tape Seal, Shipping Position, Custom Marking, ON or OFF Shipping Position | $\begin{aligned} & 2,000 \\ & \text { Cycles } \end{aligned}$ | $-40^{\circ} \mathrm{C}$ to $+85^{\circ} \mathrm{C}$ |
| 206 |  | Top Actuated, $.100^{\prime \prime} \times 300^{\prime \prime}$ <br> Terminal Spacing, ESD Protection | SPST, SPDT, DPST, 3PST | Contacts - Gold, <br> Terminals - Tin | Bottom Epoxy Seal, Top Tape Seal, 3 Actuator Heights, Custom Marking, ON or OFF Shipping Position | $\begin{aligned} & 10,000 \\ & \text { Cycles } \end{aligned}$ | $-55^{\circ} \mathrm{C}$ to $+85^{\circ} \mathrm{C}$ |
| $\begin{aligned} & \text { 206RA } \\ & \text { 208RA } \end{aligned}$ |  | Right Angle Actuated, $\text { "100" x . } 100 \text { " }$ <br> Terminal Spacing, ESD Protection | SPST, SPDT, DPST, 3PST | 206RA: See 206, <br> 208RA: See 208 | Bottom Epoxy Seal, Top Tape Seal, 3 Actuator Heights, Custom Marking, ON or OFF Shipping Position | $\begin{aligned} & 2,000 \\ & \text { Cycles } \end{aligned}$ | $-55^{\circ} \mathrm{C}$ to $+85^{\circ} \mathrm{C}$ |
| 208 |  | Top Actuated, $.100^{\prime \prime} \times 300^{\prime \prime}$ <br> Terminal Spacing, <br> ESD Protection | SPST, SPDT, DPST, 3PST | $\begin{aligned} & \text { Contacts - Tin, } \\ & \text { Terminals - Tin } \end{aligned}$ | Bottom Epoxy Seal, Top Tape Seal, 3 Actuator Heights, Custom Marking, ON or OFF Shipping Position | 206: 10K <br> Cycles, <br> 208: 2K <br> Cycles | $-55^{\circ} \mathrm{C}$ to $+85^{\circ} \mathrm{C}$ |

| 210 |  | Auto Insertable, Low Profile, Top Actuated, .100" Pitch Terminal Spacing, Bottom Seal | SPST | Contacts - Gold <br> Flash, <br> Terminals - Tin | Top Tape Seal, 3 Actuator Heights, Terminal Forming, Custom Marking, ON or OFF Shipping Position | $\begin{aligned} & 1,000 \\ & \text { Cycles } \end{aligned}$ | $-40^{\circ} \mathrm{C}$ to $+85^{\circ} \mathrm{C}$ |

## Rotary DIP Switches

## Typical Applications

Navigation and communication equipment, sound mixing and editing consoles, automotive climate control and entertainment systems, military radios, transmitters and receivers

The CTS $7 \times 7 \mathrm{~mm}$ miniature rotary DIP switch and $10 \times 10 \mathrm{~mm}$ compact rotary DIP switch models are available in both surface mount-gull wing and throughhole terminal styles with a flush or raised shaft. The 10 $\times 10 \mathrm{~mm}$ is also available in a J-bend surface mount construction. CTS's robust design features precise detents, clockwise or counterclockwise rotation,
binary-coded decimal (BCD) and hexadecimal output, high-temperature resistance, gold-plated beryllium copper contacts and tin-coated terminals. Rotary DIP switches can be used in many of the same applications that use slide-type DIP switches, as well as those that require less space on the PCB or require simple adjustments.

|  | Typical <br> Applications | Rating | Code | Options | Rotation |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |

## Rotary Selector Switches $\rightarrow$ sense

## Typical Applications

Heavy equipment, major and small appliances, test and medical equipment, emergency lighting, siren, and HVAC controls

CTS's rotary switch product line offers both durable construction and versatility. The robust hill-and-valley detent system of these switches allows crisp and sure connections, while the molded stator prevents solder from flowing into the circuit during the assembly process. This reliable construction combined with an assortment of options provide a product that meets
the needs of your application. These switches are available with both shorting and non-shorting contacts, solder lug or PC terminals, various shaft styles, panel sealed up to an IP 67 rating, with single or multi-deck construction and custom switching patterns

| Series | Description | Actuation | Plating | Options | Life | Operating Temperature |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 212 | 1-1/8" Diameter Steel Construction Hill-and-Valley Detent Glass Thermoset Molded Wafer | Up to 12 <br> Positions/Pole, <br> Shorting or Non-Shorting | Silver-Plated Brass Contacts and Terminals | Adjustable Stop Terminal Styles, Custom Switching, IP 67 Panel Seal | 25,000 <br> Cycles <br> Minimum | $\begin{aligned} & -20^{\circ} \mathrm{C} \text { to } \\ & +110^{\circ} \mathrm{C} \end{aligned}$ |
| 227 | 1-1/8" Diameter Die Cast Construction Hill-and-Valley Detent Glass Thermoset Molded Wafer | Up to 12 <br> Positions/Pole, <br> Shorting or Non-Shorting | Silver-Plated Brass Contacts and Terminals | Terminal Styles, Custom Switching | 25,000 Cycles Minimum | $\begin{aligned} & -20^{\circ} \mathrm{C} \text { to } \\ & +110^{\circ} \mathrm{C} \end{aligned}$ |

## Tactile Switches

## Typical Applications

Home appliance, control panels for security systems and HVAC, mobile devices and automotive

CTS's tactile switches combine reliability with superior tactile feedback in multiple sizes, operating forces, actuator heights and life cycles to meet the demands of your application. These tactile switches are used
for human interface applications in which the user applies force to the momentary push button switch for selection and control.
