SEALED, ILLUMINATED ROCKER SWITCHES

LOW COST, SNAP-IN ROCKER FOR WET & DUSTY ENVIRONMENTS

The K series rockers are rugged, high performance sealed switches designed for use under severe conditions found in marine, appliance, heavy equipment and industrial control applications.

The K1 and K2 series are sealed to IP68S and IP69K and panel sealed with an optional panel gasket.

The K1 series is offered in single pole configuration and the K2 series is available in both single and double pole configurations. Both series offer illuminated models. Illumination can be independent or dependent of the switch position or a combination of both. A choice of red, green, clear or amber colored lenses are offered in illuminated models. Illumination options include incandescent, LED or neon light sources.

Mounting is simple and quick; snaps into panel from the front. The OTTO snap-in design supports a variety of panel thicknesses with just one cutout size.

A choice of models are offered to handle high power levels and logic level electronic switching applications.

Custom colors are available upon request. Value-added assemblies with wire leads are also available. Please contact our factory for assistance.

- Sealed to IP68S and IP69K
- Fits industry standard panel openings for drop-in replacement of panel sealed & unsealed switches
- Snap-in feature accommodates a wide range of panel cutouts
- UV & solvent resistant
- Withstands extreme shock & vibration
- Custom legends available
- 2 & 3-position, momentary & maintained action
- Incandescent, LED & neon illumination with independent & dependent light source options
- UL recognized
- Ignition protected
- Optional one-piece connector
- Optional panel gasket available
- RoHS compliant

K1 PART NUMBER CODE

Light/Circuit Location

A. No Light

ON in position "A" Wired to terms 1 & 3 Dependent Light

Independent Light ON in position H.

D = Dependent Light I = Independent Light

- LED anode (+) terminal number shown in bold.
- Light on OFF side must be independent.
- · Contact factory for multiple light types in the same switch.

NOTES:

- . No momentary switches with dependent lights.
- . Neon lamps only to be coded with clear or amber lenses
- LED lenses must be clear or same color as LED.
- No dependent light in OFF position.
- All legends printed on actuators without lens(es) will be white except actuator codes C, F, J, M & R.
- · All legends printed on lenses will be white except on clear lens(es) will be black.
- K1 panel plugs available as shown in Panel Plugs (PP) section.
